

Screening Questions	Yes	Risk*	Remarks
	/No	L/M/S	
A. Project Site Is the Project area adjacent to or within any of the following environmentally sensitive areas?			
Encroachment on precious ecosystem (e.g. sensitive or protected areas)?			
Damage to sensitive coastal/marine?			
Cultural heritage site			
Protected Area			
Wetland			
Mangrove			
Estuarine			
Buffer zone of protected area			
Special area for protecting biodiversity			
B. Potential Environmental Impacts Will the Project cause...			
Air Contamination			
Increased local air pollution due to rock crushing, cutting and filling, dust etc?			
Fumes, smoke discharges to air from activities e.g. bitumen, fires, machinery emissions etc.			
Water Contamination			
Alteration of surface water hydrology of waterways resulting in increased sediment in streams affected by increased soil erosion at the construction site?			
Deterioration of surface water quality due to silt runoff, sanitary wastes from worker-based camps and chemicals used in construction?			
Solid Waste			
Chemical pollution resulting from bitumen, chemical clearing of vegetation, fuels for the construction site?			
Dumping of removed materials, storage of waste, clearing waste etc			

Social/Cultural			
Dislocation or involuntary resettlement of people causing social conflicts relating to inconveniences in living conditions?			
Discovery of Maori artifacts during excavation or known archeologically significant area?			
Disturbance of local community or events etc?			
Regulatory/Political/Community			
Hazardous driving conditions where construction Limit's access with pre-existing roads?			
Encroachment on historical/cultural areas, disfiguration of landscape and increased waste generation?			
Is there any Resource Management Act or consent issues that must be complied with?			
Resource Use			
Use of local or other resources and materials that could have an impact on the source.			
Other:			
Noise and vibration due to blasting and other civil works?			
Poor sanitation and solid waste disposal in construction, camps and work sites, and possible transmission of communicable diseases from workers to local populations?
